## BECKHAM ANNOUNCES FOR UNITED STATES SENATORSHIP

Former Governor J. C. W. Beckham has announced his candidacy for the Democratic nomination for United States Senator from Kentucky, to succeed William O. Bradley, in the State primary election to be held throughout Kentucky in August, 1913. His card of announcement is as follows:

"In answer to a great many inquiries, I feel that I should, without further delay, make known my purpose in regard to the approaching race for the United States Senatorship, for which a Democratic nomination is to be made in the State primary next August. Following my retirement from the office of Governor, about five years ago, and the result of the Senatorial election in the General Assembly of 1908, it was not my intention to again seek public office. Eight years of arduous and difficult service as Governor, frequently dealing with serious and critical questions, had prepared me to welcome and enjoy the relief from public responsibilities and the peace of private life which such retirement offered me.

"But from the people and the press of the State I have received so many kind and flattering assurances that I might as a Senator from Kentucky be of some useful public service, and gratefully appreciating the honor implied by such expressions, I have decided to become a candidate for the Democratic nomination for that office in the primary next August, and to submit my candidacy to the Democratic voters of the State.

"I believe the people of Kentucky have known me long enough and well enough to judge by what principles and purposes I have always been influenced in my public life, and how well or ill I have met every responsibility or obligation confronting me. I have been frank with them at all times, frequently when I believed it to be to my personal disadvantage, and I have never let them remain in doubt about my position upon any important political subject.

"Upon the issues now prominent before the country, the people of Kentucky well know how I stand, and what my course of action would be if I should be elected to the Senate. I am in hearty accord with the principles of the platform of the Baltimore convention, and it would be my endeavor as a member of the Senate, without ostentation or display, to earnestly and efficiently assist President Wilson and his administration in fulfilling the promises made to the people in that platform and in the recent campaign.

"The verdict of the American people in the recent National election was unmistakable and emphatic. They voted for a definite change in certain policies of the Government, the restoration of its control to the people, the dethronement of the power of special interests, relief from the burdens of tariff taxes and tributes, the overthrow of monopoly in our industries, the readjustment of the functions of government to serve the masses of the people rather than those favored classes which have fattened upon special privileges, and for other just and needed reforms outlined in the Democratic program. However much we may rejoice over the recent result at the polls, our victory is not yet won, and will not be won until we have substantially fulfilled these expectations of the people by enacting into laws the promises we have made. It is evident that the admirable man we have elected President recognizes the solemnity of the obligations placed upon him in these matters, and it is essential for the success of his administration that he should have in the Senate, as well as in the House, to aid him in keeping faith with the people, men who are in cordial sympathy with his policies, and men who are willing and capable of finishing successfully the work to be begun.

"I seek this position as Senator from my Native State not merely with any selfish consideration of the honor it may bring me, but for the broad opportunity it would afford me of rendering some useful and patriotic service to the people of the country. I believe that I have had such experience and training as would make me reasonably well prepared for the work. I do not come before the people of Kentucky in this race unknown to or unwelcome by them. In my public career in the past they have had ample opportunities to determine whether or not I can be trusted with official responsibilities, or whether or not I am accustomed to redeem my promises and obligations to them.

"Upon their sound judgment and generous confidence I rest my candidacy for this high office, seeking their support if they believe me worthy of it, and advising them to vote for some other man if they believe he can more faithfully and successfully serve them."

Dr. E. B. Dishman, of Bar-boursville, a prominent young dentist and Eleventh district democrat was here last week looking after some business matters and incidentally putting in a few words in behalf of his candidacy for the collectorship for this district. The democrats of this end of the district from every indication are going to line up for the Doctor for the appointment. The other Eleventh district aspirant is Judge Ben Smith, of Somerset, who is asking the support of the Democrats because of what he has done for the party. The Judge made a splendid record when in the recent contest he persisted in running for Congress, purely for a selfish and personal gain, to the detriment of the party and district; when he knew there was no possible chance for his election; over the protest of at least half the democrats of the district and when he knew as well as any man in the district that if he continued in the race it only insured the return of C. E. Powers to Congress, to dishonor and disgrace the district for another two years. That record may entitle him to endorse others for post office but he certainly is not entitled to any of the fat of the land himself.

We're coming Father Woodrow a hundred thousand strong; they've kept us out sixteen years too long; we're hungry and we're thirsty, but manna you'll supply from messenger to cabinet heads we will surely fly; we've waited and we've waited to hear the big horn blow; and now we feast on plenty while others eat and grow; and now from Main to Texas, you'll hear our battle cry—we're coming Father Woodrow we're coming for our pie.

During the week preceding Christmas the officials of the postoffice find a congestion of business almost impossible to handle, says a metropolitan exchange and this is also true of the country offices. There are necessary delays which can not be helped and which must be excused. The same is also true with the express companies. Christmas buying early relieves the situation somewhat, if Christmas gifts are to be sent away.

Going through the presents ye Editor received last year he found that he had three books from admirer friends and that each book had the leaf torn out. Ye Editor is not superstitious or particular, but he has a kind of sneaking idea that them books had been used for Christmas presents before. Evidently from anti-pugs.

Blind kids girls are working the switch board in Baltimore, but that's nothing we know where lots of deaf ones are employed.

Christmas comes but once a year; Tis the words, but true. If it came, say twice or more—Scott! What would we do?

## CULPEPPER SIFTINGS

"The train struck a man and injured him severely."  
"Was the man on the track?"  
"He was. No engineer, I trust, would run the train into the woods after a man."  
"I see they have put a sounding board at the back of the ministers' pulpits," said Baron. "What do you suppose that's for?"  
Egbert replied: "Why, its to throw out the sound."  
"Gracious," said Baron, "If you throw out the sound there wouldn't be anything left of the sermon."

Wind is air in motion. Air gets into motion when it leaves one place or starts for another. Many excellent reasons are advanced for this. It is explained that when it is warm one place the air rushes in to fill the vacancy caused by the rarefaction, and when it is cold some place else the air rushes there for some reason which has escaped us.

Wind is very annoying to ladies who wear the recent clinging, thin garb. It annoys them so that they walk up and down the widest streets all the time just to show the wind that it needn't think it can keep them indoors. The same wind that fans the fevered brow of pain, that croons a lullaby through the pines, that moves the majestic ships through the sea that some wind will snatch your new \$1.97 straw hat from your head and run it in the dust of the street.

When unusually warmed, wind becomes hot air. This variety of wind is most helpful to book agents, insurance solicitors, cardinals and gentlemen who want to borrow money.

"I wanted to thank you from the bottom of my heart," wrote C. B. Rader, of Lewisburg, W. Va., "for the wonderful double benefit I got from Electric Bitters, in curing me of both a severe case of stomach trouble and of rheumatism, from which I had been an almost helpless sufferer for ten years. It suited my case as though made just for me." For dyspepsia, indigestion, jaundice, and to rid the system of kidney poisons that cause rheumatism. Electric Bitters have no equal. Try them. ## GOOD ROADS AND EDUCATION.

What shall be done by the people of dear old Rockcastle in the near future? Let me mention a few of the advancements on educational lines that have developed in the last eighteen years. Mt. Vernon had one school room which provided seating capacity for about one hundred and twenty five pupils all in one room, located in the rockiest spot in the district and looked after by one teacher and sometimes the teacher would have the assistance of some of the older pupils. Now my dear reader let me push back the curtain, "so to speak; and let you look at Mt. Vernon from an educational standpoint at present, and what do you find nestled in the confines of our little city. First you will see a Graded School well equipped with all modern conveniences, that furnishes an education to the poorest child in the district without one cent extra cost to the parent in many instances. Second I want to call your attention, to the Brown Memorial School which is certainly a great source of education for the girls of our town and county, and third, The Welsh-Morrow School conducted by Miss Ida Mae Adams, which school I must say has done no little part in raising the standard of our teachers throughout the county. With these great strides toward advancement so plain for us to see we are compelled to say that we have a spirit of enterprise and progression abiding within us. Now as I have already said it is perfectly plain to all of us that, we have made great advancements, educationally, why, not let us turn our minds and hearts to roads and see what can be accomplished let me in my humble way picture to you a fine Graded School with all the equipments pertaining thereto, where all the different grades are taught by some 5 or 6 teachers in reach of every child in the county some will say it can't be done but I take the position that it can be done by laying good roads, we can consolidate the district and have school wagons, thus placing every child on an equal. Colorado, Indiana and several other states have done this and they find that every time they spend one dollar to broaden education it brings back to them several. The better

our people are educated the less crimes we have, and education makes us progressive and liberal in our views, you can't make me believe but that we have the best people, God has made so let's be loyal to Him and see if there isn't some way by which we may improve the talents He has given us and see if you don't see great changes in our dear old county in the next few years.

Yours,  
CHAS. C. DAVIS.

## NEW K. & I. BRIDGE.

While waiting for my train in seventh street station, I had the good fortune to meet with Tilman Gilpin, who was just starting out with a special across the K. & I. bridge. He invited me to go which I did.

This bridge spanning the Ohio river, near the foot of Thirty-first street was dedicated November twenty-seventh. This being the first train to cross the bridge. We left the seventh street station shortly after ten o'clock. When the train started across it was greeted by shrieking locomotive whistles on both shores of the river and a number of steamboats on the river while the dense throng of people that filled the streets and lined the banks cheered heartily.

Thomas Shannon, oldest engineer in the service was at the throttle. On the north side we tarried awhile, and then returned to the Kentucky side. Near Thirtieth and High Streets we left the train to hear speeches by Lieut. Gov. E. J. McDermott, Mayor W. O. Head, General B. H. Young and other prominent men. At the close of the speeches employees of the K. & I. System presented a gold watch, set with a large diamond to the retiring superintendent who is recognized as the man who got the bridge for Louisville.

This bridge is what has been needed for some time. General Young was president of the old Kentucky and Indiana Bridge and Railroad Company which built the first bridge. The cost of this bridge was two millions of dollars.

## THE SCOURGE OF HOG CHOLERA

Cost the hog raiser millions of dollars last year and nothing short of vaccination seemed to offer the slightest promise of a cure.

Prevention, however, is the logical solution of the question. Dr. Hess (M.D., D.V.S.) has always maintained that by giving Dr. Hess Stock Tonic to tone up and strengthen every organ in the system, to regulate the bowels, liver and kidneys, expel worms; and also thoroughly disinfect the premises, sleeping quarters and runs with Dr. Hess Dip and Disinfectant, would prevent an outbreak of this disease.

**Read what one of the big hog raisers in the country says:**  
"During 1911 our country was visited by one of the worst hog plagues ever known. We fed Dr. Hess Stock Tonic, and only lost two head out of a herd of two hundred and ten."—Alex. Nevius, Modesta, Ill.

**Also note what bulletin No. 182 of the Kansas State College says about preventing Hog cholera:**  
"When we recall the conditions which favor the disease and the manner in which its infection takes place, it will be seen that feeding and curing of hog has much to do with the prevention of the Cholera. Premises should be cleaned and disinfected regularly. The hogs themselves should be dipped every few weeks. Maintaining these conditions helps to keep up the vitality of the hog and in this way troubles of all kinds are ward off. To aid digestion and circulation and to prevent worms, the bulletin recommends a formula of Wood Charcoal, Sulphur, Salt, Sodium Bicarbonate, Sodium Sulphate, Sodium Hyposulphate and Black Antim."

This formula, given in tablespoonful doses would undoubtedly be beneficial but would cost the hog raiser about 10c per pound. Now compare this with the formula for Dr. Hess Stock Tonic which is vastly superior and has stood the test of 20 years.

**NUXOMICA**, Digestive and Nerve Tonic.  
**SULPHATE OF IRON**, Blood Builder & Expels Worms.  
**COMMON SALT**, Appetizer. Expels Worms.  
**NITRATE OF POTASH**, Acts upon the Kidneys.  
**PENUGREEK**, Tonic and Aromatic.

**QUASSIA**, Digestive & General Tonic. Expels Worms.  
**SULPHATE OF SODA**, Laxative & acts upon the Liver.  
**EPSOM SALTS**, Laxative.  
**CHARCOAL**, Prevents Noxious Gases.

This preparation is compounded by Dr. Hess (M.D., D.V.S.) and sold to you on a written guarantee and only costs 3c per month for the average hog. The definition of the ingredients are taken from the United States Dispensatory and noted medical authorities.

Marriage license were issued this week to Chester Singleton and Joe Anne Adams; Granville Jennings and Laura Scott; W. L. McAdams to Sarah Blanton; John Rowe to Liza Renner.

The Regular meeting of the Woman's Club will be held this afternoon (Friday, Dec. 13) at three o'clock at the home of Mrs. J. W. Brown. The Home Economics Department will have charge and all members of the Club are invited to be present.

The first Open Meeting of the Woman's Club was held last Friday evening at the Masonic Hall with Mrs. W. J. Sparks, Mrs. Cleo Brown and Miss Mat Williams as hostesses. The room was made most attractive with potted plants and a short program added to the pleasure of the evening. Miss Daisy Fish read Mrs. E. B. Brown's "Cry of the Children" as an introduction to the subject of the Child Welfare Exhibit, which was described by Miss McCord and Mr. J. W. Brown. A story by Miss Robertson and readings by Miss Watson and Miss Ida May Adams completed the program. During the Social hours which followed, a delicious supper was served.

Remember the musical at the Graded School building this evening.

Sutton & McBee are headquarters for men and boys furnishings goods.

We are offering some bargains in Ladies cloaks.

## SUTTON & McBEE.

The Young Peoples Missionary Society will not meet tonight. A meeting will probably be held early next week.

Five years from today Rockcastle county will be the greatest cement center in the United States. Remember the prediction.

A small child of William Hysinger was badly burned about the arm and body. Dr. Chestnut reports the little fellow doing nicely.

Mrs. Jane Bloomer one of the oldest women living in the county died last week at her home at Wabed, of Paralysis. She was 81 years old and was sick one week.

CARD OF THANKS.—We wish to extend our sincere thanks and appreciation to our friends and neighbors who stood by us in the recent illness and death of Husband and Father, J. N. Griffin.

## WIFE AND CHILDREN.

FOR SALE.—As administrator of the estate of the late John M. Smith, I desire to sell three shares of stock of the Bank of Mt. Vernon. Address,

JACOB SAMBROOK  
433 South 20th St.,  
Louisville Ky.

In this issue appears the statements of our three banks, which are splendid showings for each of the institutions. Twelve years ago not a bank in the county, now three good ones, and this tells only a small part of the story of what progress the county has made in that dozen years. The story that the next twelve will tell, every indication points, will be ten-fold greater in the past.

Mr. Nelse Griffin, one of our oldest and most honored citizens died at his home at Mareburg Saturday after an illness of only a few weeks. Mr. Griffin went South a few weeks ago to spend a short time with his son, and was taken seriously ill. He was brought to his home and given every attention possible, but his age and the seriousness of the attack was too great a strain upon him and gradually he grew worse until the end came.

Mr. Griffin was the father of a large family, being one of the largest if not the largest in the county. The burial took place in the Mareburg cemetery.

WOMAN BEGS TO SPEND FUND IN TRUST TO DEFEND WARD.

Lizzie LaFollette, guardian of Warren R. Sanders, 20, filed a petition in Circuit Court yesterday asking that she be allowed to spend a portion, or all, of his estate in defending him in a criminal prosecution now pending against him. She says that her ward is in the Rockcastle County jail, at Mount Vernon, Ky., awaiting trial on a charge of forgery.

Mrs. LaFollette says that the entire estate belonging to her ward, now in her possession, is \$186.15 and that he has no other means. Young Sanders, she declares, who will be tried at the January term of the Rockcastle Court, is confident that he can establish his innocence by competent witnesses if he can obtain an attorney to handle his case.

She states that she has no money of her own to help him, declares that an attorney is necessary for an adequate defense and asks for a court order permitting her to spend all or part of the \$186.15 in defending him.

In her petition, she expressed complete confidence that her ward is innocent of the charge upon which he is awaiting trial. —Lexington Herald.

This is the same young gentleman who, by false representations, secured a horse from L. T. Stewart, rode him to Jackson county, and was trying to sell the horse when caught by Mr. Stewart. When Mr. Stewart, who is one of the most reputable citizens in the county, tells his story to a Rockcastle county jury, we doubt if Sanders finds it so easy to prove his innocence.

## MEETING OF MT. VERNON FAIR ASSOCIATION.

I would like to have a meeting of the directors of the Mt. Vernon Fair Association Tuesday Dec. 17 at 1 o'clock as there is some work that must be attended to at once I would like for all the directors to be present. Yours,  
CHAS. C. DAVIS, Pres.

One of the grandsons has just received photo copies from crayon pictures of Gen. William Smith and his wife, Ann Smith, made about the year 1842, seventy-five years ago. Mrs. Mary Miller had not seen the original pictures for sixty years but readily recognized the copies when shown her. Mrs. Miller was one of Gen. Smith's favorite grandchildren. Among the Smith descendants living in Rockcastle today—grandchildren, Mrs. Mary Miller, and James Maret; great-grandchildren Mrs. Jones Fish, Mrs. W. M. Jones, M. J. and Hugh Miller; great-great-grandchildren Anna May McKenzie and Hugh Millers children; the children of M. J. Miller; Walter H. Miller and Dr. Will Jones, brothers and sisters of Wildie. Gen. Smith and wife are buried in Mt. Vernon's Elmwood cemetery under old fashioned tombs in the extreme South part of cemetery next to Main street nearly opposite Griffins old mill.

Tub Bullock once told O'Call that all he knows could be printed on a postage stamp in display type without cancelling the stamp. Some day, afterward O'Call thought the matter over, got real mad and if Tub had been in hearing might have heard some rough talk.

# ROYAL BAKING POWDER

Adds Healthful Qualities to the Food

Prof. Prescott, of the University of Michigan, testified before the Pure Food Committee of Congress, that the acid of grapes held highest rank as an article of food and he regarded the results from baking with cream of tartar baking powder as favorable to health.

Royal is the only Baking Powder made from Royal Grape Cream of Tartar.

## HOW BLOOD IS MADE.

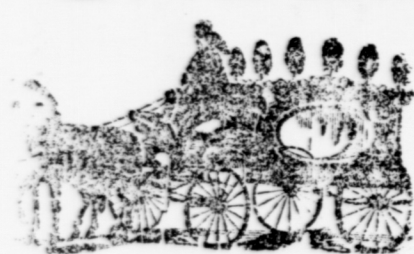

The fluids and the digested foods in the alimentary canal pass through the wall of the canal into the blood. This process is called *absorption* and takes place chiefly from the small intestine. After absorption the blood carries the food through the body, and each cell takes from the blood the food it needs. A pure glyceric extract made from bloodroot, mandarin, stone, queen's root and golden seal and sold by druggists for the past forty years under the name of Dr. Pierce's Golden Medical Discovery, gives uniformly excellent results as a tonic to help in the assimilation of the food and in the absorption by the blood of the food it requires. It eradicates the poisons from the blood with this alternative extract which does not shrink the white blood corpuscles, because containing no alcohol or other injurious ingredients. Thus the body can be built up—strong to resist disease. This is a tonic taken from Nature's garden that builds up those weakened by disease.

Dr. Pierce, founder of the Invalids' Hotel at Buffalo, N.Y., has received many letters similar to the following:

Mr. F. R. Moore, of Paradise, N. S., writes: "I take great pleasure in stating that you have cured me of my disease. In September, 1914, I was taken with a severe attack of dyspepsia, which put me in a dreadful condition. I was weak, run down, nervous and was unable to do any work. I had tried almost everything, but nothing did me any good until I saw in the paper an advertisement for Dr. Pierce's Golden Medical Discovery, and I bought a bottle of it. Before I had used one bottle I saw a great improvement and when I had used this treatment for a month, I was able to do my work. I returned to my duties, and I am now in perfect health. I would be glad to give my name to the thousands of sufferers. I advise all sufferers to write to Dr. F. V. Pierce, as he cures when others fail."

## HOW THE SCHOOL RALLY WILL HELP

Awakens New Enthusiasm in the Children's Condition.

IT MAKES THEM ALL THINK.

As an Old Farmer Said, "I Believe This Is the Most Important Lot of Young Stock That's Ever Been Exhibited." Did the Investment Pay?

A little over a year ago a man who saw possibilities in the pleasures and enthusiasm of child life decided to invest some money. He had seen much of the world, but determined to try his experiment in his old boyhood home county of Bullitt. He offered the county school officials the dividends from a thousand dollar L. and N. bond, to be used as they saw fit. These officials decided upon an all day rally

A SADDLE HORSE ENTRY.

and picnic, with many and varied contests, so that every child in the county might compete.

During the most perfect October weather Shepherdsville had her first school rally. Early that morning the children began to pour into town by rail, in buggies and surreys, in big farm wagons and on wide spread hay frames, on horseback and muleback and their friends and relatives came too. By 10 o'clock, the time set for the parade, the town was alive with boys and girls. The staid farmers that braced the courthouse fence were long badges hanging from the laps of their coats, badges that read "FRIENDS OF THE SCHOOLS." No one seemed inclined to talk about crops or politics.

With a full brass band from Louisville heading the column, 700 youngsters marched, danced and pranced through the old town. It was a parade of exquisite beauty because of the joy that beamed and sparkled in childish faces; it was a parade of grave importance because of the future citizenship that was there. The long line was broken here and there by a gayly decked wagon overflowing with snuggly, giggling, rosy faced girls and boys.

The contests at the fair grounds were begun as soon as the parade disbanded. These contests were divided into eight sections, so that children of about the same age might enter. There were spelling matches, arithmetic matches, story telling matches, in progress at almost continuously. There were potato races, foot races, three legged races, horse races, hitching up races, races for each and every one. Now and then the program would be interrupted by marching column with its cheer leader. The column would yell itself hoarse and retire amid the applause of the

ONE OF THE FLOATS.

grand stand. Over in the floral hall was a splendid display of needlework, good things to eat and handwork of all kinds. All of this fun and enthusiasm out in the glad morning sunshine of a perfect autumn day!

Was the investment a good one? The might be answered by a farmer's answer to the question, "Well, what do you think of it?"

The old man's face wrinkled into a smile that began in the corners of his eyes and gradually spread to his lips before he said quietly: "I have been lookin' at fine stock in this fair grounds for years, an' I've thought a lot about feedin' an' han'lin' stock, but—he hesitated a moment, waved his hand out toward a big group of children intent upon some contest and continued—"I believe this is the most important lot of young stock that's ever been exhibited, an' I'm goin' to think more about han'lin' 'em after this."

## EDUCATION AND SUCCESS

The Farmer Is Essential to the Latter.

CATTLE AND THE CHILDREN.

If Two Year and Four Year Old Steers Won't Thrive in Same Feed Lot Why Should Children of All Ages Study Together?

"Johnny, he ain't takin' no interest in his school. I've got a mighty good notion to let him quit an' go to work on the farm."

"How long has he been in school?"

"Oh, he's been off and on about six years. I reckon. He's just finished his Fourth Reader, so he's got enough schoolin' to use on a farm. He's got more than my granddaddy had in his day, an' you know he died worth about \$30,000."

"Tell me something about your grand father."

"Well, you see, he come over the mountains when this here was all virgin land, an' he took some land an' began to clear it up an' farm it, an' he—"

"What did you say he paid for it?"

"Granddaddy? Why, he didn't pay nothin' for it."

"How much land did he get?"

"Oh, he could 'a' had all he could tend to—a thousand acres was all he could tend to, an' he—"

"So he farmed a thousand acres, did he?"

"Not all of it. Some of it was left in timber so the hogs could be turned out to fatten on the beech an' oak mast in the fall. An'—"

"How did were the hogs when he killed them for meat?"

"About two years of. Say, what are you askin' me all these questions for anyhow?"

"I am trying to find out why you think Johnny has enough education to make him a successful farmer."

"I just now told you because his granddaddy made a snug fortune with less schoolin' than Johnny's got."

"Can Johnny go out an' find a thousand acres for nothing?"

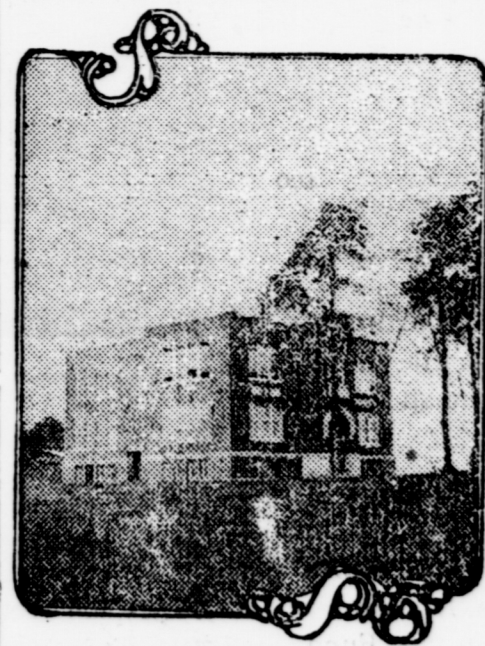

"No; of course he can't."

"Can he afford to keep a hog for two years an' fatten him on beech an' oak mast?"

"No. Why, say, look here, I never thought of it before, but my gran-

daddy got rich just a-settin' still, didn't he?"

"Yes; he did. Where your grandpa ther got a thousand acres for nothin' your boy will have to take it at a valuation of from \$30,000 to \$100,000 and make it pay. He can't wait two years for hogs to be ready for slaughter. I must be at eight to ten months. There is no way now for your boy to be a pauper and get rich sittin' still. He must be educated to succeed in the twentieth century."

A REAL SCHOOL.

He knew—He Had Fed Cattle. The old trustee turned to the visit and asked, "Well, what do you think of our new consolidated school?"

"Beautiful! Cost a lot of money, didn't it?"

"Yep, an' it costs like smoke to run it with teachers for all the different grades. But all of us are for it now."

"Were you against consolidation?"

"Yep, I was against it strong. You see, I got the three R's in a single room schoolhouse."

He paused, looked at the splendid brick building and continued: "I oughter known better to anybody that had fed cattle for thirty years oughter know a consolidated school was better than a one room school."

"Why should you have known? Cattle and children are not the same."

"Look here—just stop an' think for a minute, will you? I've known for thirty years that you can't put wealth in calves, two year an' four year of steers in the same feed lot an' get fast class results. In our of time one room school we had 'em all sizes an' ages in the same lot an' feedin' out of the same trough. It won't work any better with children than it does with cattle."

A school tax is simply a long time investment in brains; therefore the eternal question should not be "HOW SMALL A TAX CAN WE GET ALONG WITH?" but "HOW MUCH CAN WE INVEST TO ADVANCE?" It is a business proposition pure and simple.

The quicker a cold is gotten rid of the less the danger from pneumonia and other serious diseases.

Mr. B. W. L. Hall, of Waverly, Va., says: "I firmly believe Chamberlain's Cough Remedy to be absolutely the best preparation on the market for colds. I have recommended it to my friends and they all agree with me." For sale by Chas. C. Davis.

Children Cry FOR FLETCHER'S CASTORIA

## The Most Profitable Farming in the World

Alfalfa lands in the Pecos valley of Texas are the best investment in the world today. Hundreds of acres have this year earned a gross revenue of from \$150 to \$250 an acre. Think of it! Five to seven crops annually of pea-green hay of perfect quality, one to two tons to the cutting with one a seed crop running from 600 to 1,000 pounds to the acre, being all known records.

These same lands grow perfect fruit of most exquisite flavor and finest keeping quality. The peaches that captured the first prize at the World's Fair in St. Louis were grown six miles from our lands. A pear orchard 30 miles away has produced over \$1,000 worth of fruit to the acre, two separate years. One of the famous apple orchards of the world is located 140 miles up the river in a less favored locality.

Vegetables of the hardy varieties, like cabbage, celery, cauliflower, Bermuda onions, etc., grow all winter, and ripening in the spring when other localities are seeding, bring fancy prices. No insects at that season means perfect quality, and no weeds enables a man to farm five times the acreage he can in the East during the summer season. Onions pay \$150 to \$160 an acre; celery and cauliflower up to \$1,200; Rocky Ford cantaloupes, \$150 to \$650; seed stuffs, \$75 to \$150, and all other crops do equally well. You can buy some of our best land, hire all labor, and the first year's crop will pay for everything, if you manage properly.

The climate is the finest in the world. 325 out of 365 days are brilliant sunshine, moonlight nights so clear fine print can be read at midnight; altitude, 2,800 feet; the country of perfect health conditions. Health, wealth and happiness come to all who go there and improve their opportunities.

We want desirable settlers and will sell farm lands in any sized acreage, on terms to suit their requirements. We are not traders, but are willing to exchange some of our properties for desirable city or farm realty, securities or clean stocks of merchandise, which preferably can be shipped to our new town. All land values are certain to double inside of the next two years, and meanwhile will earn 25 per cent and upward if properly farmed. We have been in business 35 years and know how. You furnish the money, we the experience, and we will divide the profits. We take especial pride in making money grow to our mutual benefit and so the business of inexperienced people who want to make their money earn larger returns as well as the critical investigation of scientific agriculturists and horticulturists who know a good thing when they see it.

Remember, that nowadays those who handle rich farm lands under favorable conditions are all getting rich. There never has been a failure or partial failure on lands of ours, if properly farmed, and a city man as a rule prospers as well as the experienced farmer.

The farmers in that country can make more money on 40 acres in year than can be made on 160 acres of the best land in the East. We guarantee the correctness of every statement we make and failing to prove each claim will refund the expense of the trip. Go with us and see for yourself. We pay all expenses of a trip of investigation for those who purchase our lots, lands or securities. Don't take any one's word, but go with us and see for yourself and secure the big profits.

December 31st, we will run a private car, from Mayfield, via Memphis and make a round trip rate of \$45 for ticket, berth and meals, no other expenses.
